

UNLIMITED PLM PERFORMANCE **DEVELOPED BY ISD**

### **Optimize your corporate processes**

HELiOS is a multifunctional PDM/PLM solution that combines product, process and peripherals management in one single system. It allows a consistent storage, management and distribution of all process-relevant data in connection with the product life cycle. With HELiOS you can improve automation and benefit from many advantages – redundancy-free data management, automated workflows and reports, data security, effortless working across locations, and much more.

### **Don't search – find!**

Once saved in the engineering department, the data are available to all departments involved in a project – Production, Purchasing, Service, Marketing, Sales, etc. – and can then be used throughout the entire product life cycle. HELiOS monitors all processes and constitutes the central “knowledge reservoir” of your company.

### **Independent into the future**

As a multi-CAD capable PDM/PLM system, HELiOS offers an integrated comprehensive solution that can be interfaced with many different CAD systems, i.e. it can even support engineering departments with heterogeneous CAD environments. Use our CAD interfaces to optimize your working processes!

### **Multi-CAD interfaces for an easy drawing management**

- AutoCAD®
- Inventor®
- SOLIDWORKS®
- Navisworks®
- HiCAD®

# HELiOS AND MCAD-SYSTEMS

THE WORLD OF CAD AND PDM SOLUTIONS

# HELiOS **At a glance!**

## HELiOS is your central “knowledge reservoir”

- Redundancy-free data management and instant access via one single system
- Index Management: Fast and easy applying and tracking of modifications
- Replication Management: Rapid and secure data transfer between remote locations
- Management, distribution and monitoring of all product data and documents from all systems
- Very flexible, customizable plot management
- Microsoft Office interface
- Automatic filling in of title blocks in drawing frames

- Parts where-used lists available at the push of a button
- Out-of-the-Box solution available

## Process automation

- Optimization of corporate processes with workflow and access management
- Workflow-controlled, automatic PDF generation
- Automatic printing of all production documents, and documents related to assemblies or projects
- Interfaces to ERP systems with many standardized options (article master creation, BOM transfer, document transfer)

## Full integration into MCAD systems

- Extensive functionalities for a fast deriving of parts and assemblies
- BOM transfer from Inventor®, SOLIDWORKS® and HiCAD® to HELiOS
- Non-CAD-relevant data can be added to BOMs in HELiOS
- Access to HELiOS directly from the respective CAD application

## Success needs a strong partner

Check out our innovative PDM/PDM solution - if you want to learn more, we will be delighted to demonstrate the advantages of our products in a personalized presentation or a free one-to-one consultation. Don't hesitate to contact us – we'll be pleased to help you.
